

# Paper Outline

David Oniani

Luther College

[oniada01@luther.edu](mailto:oniada01@luther.edu)

April 16, 2020

There will be 5 sections.

- Introduction — will introduce the topic and discuss its history.
- Applications — will discuss the applications of cosine similarity in AI/NLP.
- Comparison to Other Approaches — will compare cosine similarity to other text semantic similarity approaches.
- Current work — will briefly discuss the current, state-of-the art work.
- Summary — will recap the paper.
