

# Paper Outline

David Oniani

Luther College

[oniada01@luther.edu](mailto:oniada01@luther.edu)

April 13, 2020

There will be 4 sections.

- Introduction – will introduce the topic and briefly cover its history.
- Applications – will discuss applications of cosine similarity in AI/NLP.
- Comparison to Other Approaches – will compare cosine similarity to other text semantic similarity approaches.
- Current work – will discuss the current, state-of-the art work.
